REACH- Information

Dear Sir or Madam,

The regulation (EC) no. 1907/2006 for the registration, evaluation, authorisation and restriction of chemical substances (REACH) came into effect on July 1, 2007. Since June 1, 2008 the so-called pre-registration phase is running. The objective of the regulation is the protection of the European population and environment against misuse and wrong application of chemicals.

On October 28, 2008 the European Chemicals Agency (ECHA) published the list of candidates. Last update: 14/06/2023.

Herewith we confirm that our articles and their packaging materials **do not contain** SVHC-substances included in the Candidate List nor the Authorisation List (Annex XIV, XVII) according to article 59 (1) of Regulation (EC) No 1907/2006 (REACH) in a concentration above 0,1% by weight.

As so-called "downstream user" we have contacted our suppliers, with the object that all goods and formulations supplied to KEB and affected by the REACH-regulation are pre-registered respectively that a pre-registration is effected by further pre-suppliers. Thereby we want to ensure a smooth communication along the supply chain.

Yours sincerely

KEB Automation KG
